Free-floating planets, untethered to a star, could be more numerous than we thought, according to a new study. So could we find life on one?

The Surprising Search for the Milky Way's 'Lost Children'

During a new study, researchers from the University of Cincinnati found that conversations between bats might actually be light on substance.

Study finds bats are kings of small talk

Dogs are born with an innate ability to read human gestures that is not apparent in their closest relative, wolves.

Dogs Innately Understand Humans in Ways That Wolves Can't, Experiment Shows

Dogs have the innate ability to grasp what humans are thinking, a skill developed in their 14,000 years of hanging out with people, researchers say. In contrast, wolf puppies do not have that ability.

After thousands of years of domestication, dogs 'get' people better than wolves

But, alas, Duke researchers have made public a study that suggests capturing those wolf-dogs might be a challenge largely because they aren't going to obey any commands to 'come.' Well, unless the ...

Those Hybrid Wolf-Dogs Won't Know How to Fetch, But Duke Researchers Are Closer to Understanding Why Your Pet Pups Do

The young Northern Ireland naturalist and author only started writing because of his autism and now he's bringing along thousands on his climate journey, he spoke to Alex Marshall ...
