For 22.3 percent of the 238 medications, there was a discrepancy in which a medication was included in one compendium but not the other. "The findings suggest that compendia recognized by Medicare for making coverage determinations have significant inadequacies with respect to inclusion of common, first-line, evidence-based treatments for dermatologic illnesses," the authors write.

Off-Label Uses in Dermatology Often Missing From Compendia ...

Laser Dermatology: Pearls and Problems is different from other laser dermatology books. Each of the five chapters begins by highlighting key points and essential concepts, then focuses on the pearls and problems for each area — based on
