He compares it to " early motherhood and sexual union " (pg 21). According to Jones, sharing of meals is one of the ways that humans are interconnected.

Feast—Why Humans Share Food—Amazon.co.uk—Jones, Martin—

In Feast, archaeologist Martin Jones presents both historic and modern scientific evidence to illuminate how humans first came to share food and the ways in which the human meal has developed since that time. He also shows how our culture of feasting has had far-reaching consequences for human social evolution.

Feast: Why Humans Share Food—Martin Jones, Professor of—

Feast: Why Humans Share Food by Jones, Martin at AbeBooks.co.uk - ISBN 10: 0199533520 - ISBN 13: 9780199533527 - Oxford University Press, U.S.A. - 2008 - Softcover

9780199533527: Feast—Why Humans Share Food—AbeBooks—

The family dinner, the client luncheon, the holiday spread—the idea of people coming together for a meal seems the most natural thing in the world. But that is certainly not the case for most other members of the animal kingdom. In Feast, archeologist Martin Jones presents both historic and modern scientific evidence to illuminate how prehistoric humans first came to share food and to trace the ways in which the human meal has shaped our cultural evolution.

Feast—Hardcover—Martin Jones—Oxford University Press

In Feast, Martin Jones uses the latest archaeological methods to illuminate how humans came to share food in the first place and how the human meal has developed since then. From the earliest evidence of human consumption around half a million years ago to the era of the TV dinner and the drive-through diner, this fascinating account unfolds ...

Feast—Why Humans Share Food by Jones, Martin—Published by—

In Feast, archeologist Martin Jones presents both historic and modern scientific evidence to illuminate how prehistoric humans first came to share food and to trace the ways in which the human meal has shaped our cultural evolution. Jones shows that by studying the activities of our closest animal relative, the chimpanzee, and by unearthing ancient hearths, some more than 30,000 years old ...

Feast—Why Humans Share Food—Jet

Humans would not think twice about sharing a meal with a family member or friend, but to any other animal that would be seen as an invitation to war. Humans are the only animal that use shared meals as a way to socialize. One of the things that Jones does well is that he explains what a shared meal is.

Feast—Why Humans Share Food—Jones, Martin—9780199533527—

The scientists then tested a more difficult problem: why unrelated adult primates might share food with one another. This is harder to fathom and requires another evolutionary explanation.

Why do people and other primates share food?—BBC

From the earliest evidence of human consumption around half a million years ago to the era of the TV dinner and the drive-through diner, this account unfolds the history of the human meal and its huge impact both on human society and the ecology of the planet

Feast - why humans share food—Royal Borough of—

Humans would not think twice about sharing a meal with a family member or friend, but to any other animal that would be seen as an invitation to war. Humans are the only animal that use shared meals as a way to socialize. One of the things that Jones does well is that he explains what a shared meal is.
