This custom edition is published for Murdoch University. It comprises of selected chapters from: The Economics of Money, Banking and Financial Markets, 11th Edition Business Statistics A First Course, Global Edition, 7th Edition Financial Management: Principles and Applications, 8th Edition

The sixth edition of Financial Management provides students with an overview of financial management suited to the first course in finance. The focus of the text is on the big picture, providing an introduction to financial decision making grounded in current financial theory and the current state of world economic conditions. Attention is paid to both valuation and capital markets, as well as their influence on corporate financial decisions. The 10 basic principles of finance are introduced in the first chapter and woven throughout the text, to give students a solid foundation from which to build their knowledge of finance. The goal of this text is to go beyond teaching the tools of a discipline or a trade and help students gain a complete understanding of the subject. This will give them the ability to apply what they have learnt to new and as yet unforeseen problems—in short, to educate students in finance.

Taken from: Foundations of Finance: The Logic and Practice of Financial Management, Ninth Edition by Arthur J. Keown, John D. Martin and J. William Petty.

This jargon-free resource explains the who, what, why, and where of contemporary personal finance in simple, easy-to-grasp language, covering the key people, events, terms, tools, policies, and products that make up modern money management. • Supplies accessible, comprehensive financial information that explains complex topics in simple language • Shows the relationship between personal finance and everyday life, from renting an apartment to saving for retirement • Answers a wide variety of personal finance questions • Provides a resource suitable for both personal and scholarly use

Advances in Accounting Education: Teaching and Curriculum Innovations investigates how teaching methods or curricula/programs in accounting can be improved. Volume 15 includes papers examining communication apprehension, self-directed learning in managerial accounting courses, and a section on integrating accounting with other business disciplines.
