Fledgling, Octavia Butler's last novel, is the story of an apparently young, amnesiac girl whose alarmingly un-human needs and abilities lead her to a startling conclusion: she is in fact a genetically modified, 53-year-old vampire. Forced to discover what she can about her stolen former life, she must at the same time learn who wanted—and still wants—to destroy her and those she cares for, and how she can save herself. Fledgling is a captivating novel that tests the limits of "otherness" and questions what it means to be truly human.

Navigating through the challenging process of writing a comedy pilot, this book will help screenwriters to create an original script for television. Practical and accessible, the book presents a step-by-step guide focusing on the key elements of the process. Incorporating both the history of TV comedy as well as its current evolving state in this age of the dramedy and an ever-increasing variety of broadcast and streaming platforms, the book will serve as a guide for the fledgling sitcom scribe. Author Manny Basanese breaks down the comedy pilot writing process from what may be perceived as an overwhelming, time-consuming mission into a series of much more manageable, smaller steps (from logline to outline to 1st, 2nd and polished draft). Utilizing his experience in Hollywood's sitcom trenches, the author offers real-world advice on such topics as building the comedy pilot "world," creating memorable comic characters, sound sitcom structure, and the importance of crafting an emotional through line in a comedy pilot. Finally, there is also practical career guidance for marketing this just-completed script and breaking into the industry with advice on various topics such as the value of networking as well as gaining representation in the competitive Hollywood jungle. It is ideal for students of screenwriting and aspiring comedy screenwriters.

Development is a large and central part of the American TV industry, and yet the details of how it works – who makes development decisions and why, where ideas for new shows come from, even basics like the differences between what TV studios and TV networks do – remain elusive to many. In this book, lecturer and acclaimed television producer Bob Levy offers a detailed introduction to television development, the process by which the Hollywood TV industry creates new scripted series. Written both for students and industry professionals, *Television Development* serves as a comprehensive introduction to all facets of the development process: the terminology, timelines, personnel and industrial processes that take a new TV project from idea to pitch to script to pilot to series. In addition to describing these processes, Levy also examines creative strategies for successful development, and teaches readers how to apply these strategies to their own careers and speak the language of development across all forms of visual storytelling. Written by the renowned producer responsible for developing and executive producing *Gossip Girl* and *Pretty Little Liars*, *Television Development* is an essential starting point for students, executives, agents, producers, directors and writers to learn how new series are created.
