It's February 1942. War grips the world. Asian hate runs rampant, and New Orleans is a dangerous place for Chinese-English scientist Thomas Ling as he collides with self-proclaimed psychic Beatrix Patterson. She's a good liar with an excellent memory, which in truth is her only gift—well, that and conning the well-heeled out of their money and secrets. Hired by the US Army to use her connections to expose Nazi saboteurs and sympathizers, Beatrix recruits the reluctant Thomas. Together, they pit their skills against a government conspiracy, terrorist cells, kidnappings, and murderous plots. As Beatrix grapples with the truth of her own past, she must come to terms with her ruse. Exposing the Nazi war machine about to invade the country could cost Beatrix everything she's worked so hard to build. But the information she and Thomas uncover could change the outcome of the war. The question remains: will anyone believe a liar and a suspected traitor?

Some years ago, for no obvious reason, Paul Whiteman felt compelled to analyse the mystical number 666, also known as the number of The Beast. His little mathematical revelation was followed almost immediately by a violent thunderstorm, and by a severe attack of asthma requiring urgent hospital admission. The concurrence of these scary events with his dabbling in the occult was probably coincidental. But the episode prompted Paul to further investigate numbers and the beliefs associated with them, the culmination of this research being 666 and All That. The initial chapters provide a pertinent review of the history and nature of numbers, number systems and the numbers of time. Relevant interpretations of the Revelation of St John are presented, taking into account both exoteric and esoteric views. Particular attention is given to the prevalence of sixes and sevens. This all provides the background to his interpretation of the code, 666. The obsession with numbers and supernatural apocalypses may say more about the nature of the human mind than some association with the spirit world. So far, the attempts of seers to prospectively predict a doomsday have been unimpressive. But the most likely causes of apocalyptic events in the 21st Century are, surely, rather obvious. Unchecked, they may be associated with a major evolutionary divergence — without the help of supernatural intervention. Paul discusses these issues, and the nature of the spirit that drives modern human evolution in this complex and fascinating read.

Perhaps you are standing in a bookstore thumbing through the pages of this little book, wondering if it contains the insights you are looking for. Perhaps you are wondering who the Ascended Master Djwhal Khul is and whether he really exists or ever did exist. Ultimately, it does not matter who the source is, but whether the contents are enlightening and useful to you and whether, after reading this book, you can understand more metaphysical and significance of the present time in Earth history. My perspective is that of one who has been a Tibetan Buddhist monk who eventually presided over a monastery. In that life, I focused on mediation, contemplation, study and simple chores, as well as training and teaching younger monks. The life culminated many others spent in the monasteries of the Orient and in more mundane activities. The contemplative life makes it possible to raise consciousness to higher levels, and it is a testing ground to see how well one has learned the principles one has studied. The goals of my Tibetan incarnation were to attain my true Buddha nature, demonstrate my compassion for all sentient beings, break free of the bonds of reincarnation and join the noble ones. Thus I am giving you this book as one who has attained these goals and who now dwells in what might be considered a different dimension. Or I might be referred to as a mind without a body! At the time when I transcended to a higher level, I gained insights into a greater realm of knowledge and wisdom than had been available to me as a man incarnated on Earth. So I am not writing from the perspective of a Buddhist, but from that of one of the Spiritual Hierarchy, who guides the life on this planet. -- Djwhal Khul

In this book the author describes his development as a psychic through to working as a medium through to working as a channel. This book also contains exercises for the developing psychic and medium.

The Brahan Seer is a legendary figure known throughout Scotland and the Scottish Diaspora and indeed anywhere there is an interest in looking into the future. This book traces the legend of the Seer between the sixteenth and twenty-first centuries. It considers the seer figure in relation to aspects of Scottish Highland culture and society that shaped its development during this period. These include the practice and prosecution of witchcraft, the reporting and scientific investigation of instances of second sight, and the perennial belief in and use of prophecy as a means of predicting events. In so doing the book provides a set of historicised contexts for understanding the genesis of the legend and how it changed over time through a synthesis of historical events, oral tradition, folklore and literary Romanticism. It makes a contribution to the debates not only about witchcraft, second sight and prophecy but also about the relationship between 'popular' and 'elite' culture in Scotland. By taking the Brahan Seer as a case study it argues that 'popular' culture is not antithetical to 'elite' culture but rather in constant (and complex) interaction with it.
