There is definitely some great poetry in here. Love how Mirtha opens each chapter with a letter to give us the background or stories to the poetry we are about to receive. I also liked how it wasn't just about boyfriends in here life but all kinds of men that have helped shape and mold her or vice versa. Overall, it's a great read.

Nonetheless, *Men of Letters in the Early Republic* is a very valuable contribution to the intellectual and cultural history of the postrevolutionary period. Having displayed a persistent interest in the limitations of the social critique produced by sensibility and sympathy, Kaplan ends her book by noting that "each of the three models of intel.

In *Letters, To The Men I Have Loved* contemporary poet Mirtha Michelle Castro Mármol expresses her feelings through distinct letters and poems to various men whom she considers motivated personal growth and her transition from young adult to womanhood. With words she paints a vivid picture of feelings such as passion, forgiveness, lust, and hope. Gracefully playing with the universal

Remember the wonderfully romantic book of love letters that Carrie reads aloud to Big in the recent blockbuster film, *Sex and the City*? Fans raced to buy copies of their own, only to find out that the beautiful book didn't actually exist. However, since all of the letters referenced in the film did exist, we decided to publish this gorgeous keepsake ourselves. *Love Letters of Great Men* follows hot on the heels of the film and collects together some of history's most romantic letters from the private papers of Beethoven, Mark Twain, Mozart, and Lord Byron. For some of these great men, love is "a delicious poison" (William Congreve); for others, "a nice soft wife on a sofa with good fire, & books & music" (Charles Darwin). Love

can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one's heart like a cooling rain (Flaubert). Every shade of love is here, from the exquisite eloquence of Oscar Wilde and the simple devotion of Robert Browning, to the wonderfully modern misery of the Roman Pliny the Younger, losing himself in work to forget how much he misses his beloved wife, Calpurnia. Taken together, these letters show that perhaps men haven't changed all that much over the last 2,000 years--passion, jealousy, hope and longing still rule their hearts and minds. In an age of e-mail and texted "i luv u"s, this timeless and unique collection reminds us that nothing can compare to the simple joy of sitting down to read a letter from the one you love.

Long before the Stonewall riots, ONE magazine—the first openly gay magazine in the United States—offered a positive viewpoint of homosexuality and encouraged gay people to resist discrimination and persecution. Despite a limited monthly circulation of only a few thousand, the magazine influenced the

substance, character, and tone of the early American gay rights movement. This book is a collection of letters written to the magazine, a small number of which were published in ONE, but most of them were not. The letters candidly explore issues such as police harassment of gay and lesbian communities, antigay job purges, and the philosophical, scientific, and religious meanings of homosexuality.

Finalist for the 2018 Minnesota Book Award A graphic designer's search for inspiration leads to a cache of letters and the mystery of one man's fate during World War II. Seeking inspiration for a new font design in an antique store in small-town Stillwater, Minnesota, graphic designer Carolyn Porter stumbled across a bundle of letters and was immediately drawn to their beautifully expressive pen-and-ink handwriting. She could not read

the letters—they were in French—but she noticed all of them had been signed by a man named Marcel and mailed from Berlin to his family in France during the middle of World War II. As Carolyn grappled with designing the font, she decided to have one of Marcel's letters translated. Reading it opened a portal to a different time, and what began as mere curiosity quickly became an obsession with finding out why the letter writer, Marcel Heuzé, had been in Berlin, how his letters came to be on sale in a store halfway around the world, and, most importantly, whether he ever returned to his beloved wife and daughters after the war. *Marcel's Letters* is the incredible story of Carolyn's increasingly desperate search to uncover the mystery of one man's fate during WWII, seeking answers across Germany, France, and the United States. Simultaneously, she continues to

work on what would become the acclaimed P22 Marcel font, immortalizing the man and his letters that waited almost seventy years to be reunited with his family.

In *Letters to My White Male Friends*, Dax-Devlon Ross speaks directly to the millions of middle-aged white men who are suddenly awakening to race and racism. White men are finally realizing that simply not being racist isn't enough to end racism. These men want deeper insight not only into how racism has harmed Black people, but, for the first time, into how it has harmed them. They are beginning to see that racism warps us all. *Letters to My White Male Friends* promises to help men who have said they are committed to change and to develop

the capacity to see, feel and sustain that commitment so they can help secure racial justice for us all. Ross helps readers understand what it meant to be America's first generation raised after the civil rights era. He explains how we were all educated with colorblind narratives and symbols that typically, albeit implicitly, privileged whiteness and denigrated Blackness. He provides the context and color of his own experiences in white schools so that white men can revisit moments in their lives where racism was in the room even when they didn't see it enter. Ross shows how learning to see the harm that racism did to him, and forgiving himself, gave him the empathy to see the harm it does to white people as well. Ultimately, Ross offers white men direction so that they can take just action in their workplace, community, family, and, most importantly, in themselves, especially in the future when

Stories of the lives and losses of the Post Office Rifles in World War I—men who came from all ranks and walks of life, brought together by their common pre-war employment as Post Office workers. When World War I broke out, the post office was the biggest employer in the world.

Spanning many ranks and walks of life, 12,000 men fought bravely with the Post Office Rifles. By the war's end, 1,800 of them had been killed. Those same men who not long before had been sorting and delivering mail, found themselves hoping their own letters would get through to their loved ones at home, and relying on the letters and parcels sent to them for their own much needed morale-boosts. Using the personal stories and letters of the men who joined the Post Office Rifles, this is a moving account of how the war touched

the lives of ordinary men—how it changed communities, how women took up men’s working roles, and, of course, the vital role the mail played in the war. Love letters, letters from the front line, much-welcomed parcels of food and cigarettes, and sad letters of condolence—together these tell the story of the fallen heroes.

He was famous for telling stories. He could always make the story interesting. He had a way of seeing the best or funniest of every situation. He wrote down over 180 of his best stories in his last few years for all his family and friends. You will laugh, and relate to the stories of childhood, school years, and growing up during the depression. From his northern New Jersey, small town home he shares what it was like growing up in the 20's and 30's. From logging to working with horses, the stories provide a great view of the life

From the private papers of Jane Austen and Mozart to those of Anne Boleyn and Nelson, *Love Letters of Great Men and Women* collects together some of the most romantic letters in history. For some of these great men, love is a "delicious poison" (William Congreve); for others, "a nice soft wife on a sofa with good fire, & books & music" (Charles Darwin). Love can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one's heart like a cooling rain (Flaubert). But what about the other side of the story? What of the secret hopes and lives of some of the greatest women in history? Taken together, these love letters show that perhaps little has changed over the last 2,000 years. Passion, jealousy, hope and longing are all represented here — as is the simple pleasure of sending a letter to, and
