What she wanted was to reunite with her exiled sister. What she got was a betrayal that left her with a broken body and a shattered family. Euryale had always tried to live her life in peace, but clearly that was a mistake. Now, the gorgon is determined to rise from the ashes, save those she loves, and lay waste to all who wronged her. And if that means making pacts with the darkest, most powerful beings in all of creation to burn Olympus to the ground, so be it. A Storm of Blood and Stone picks up immediately after the events of Rise of the Gorgon, and continues the epic saga through Greek Mythology.
