This a hidden secret for setting mix balances, especially as it relates to small speakers with a limited dynamic range. Very low listening volumes expose both instruments mixed too high and too low . Instruments mixed low will fall into the noise floor of the room, and instruments mixed too high will stick out like a sore thumb.

Add just a little water at a time as you go, working it in with a shovel. To mix concrete, thrust the shovel underneath the premix concrete and fold it over on itself, distributing the wetness. Continue adding small amounts of water as you mix the concrete until all of it looks the same and it achieves a consistency that is neither dry nor soupy.
