WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a

Writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story'the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.

theme for your story. Do you know the best point in your novel to unveil your theme? How to know when to backtrack, and why backtracking is essential to writing great fiction. How to fire-test each scene to ensure it's high-impact—before you write it. Excerpt Goldilocks had always wanted to write a novel. She learned to read before she went to kindergarten. In grade school, she always had her nose in a book. In junior high, the other kids thought she was weird, because she actually liked reading those dusty old novels in literature class. All through high school, Goldilocks dreamed of writing a book of her own someday. But when she went to college, her parents persuaded her to study something practical. Goldilocks hated practical, and secretly she kept reading novels. But she was a very obedient girl, so she did what her

parents told her. She got a very practical degree in marketing. After college, she got a job that bored her to tears—but at least it was practical. Then she got married, and within a few years, she had two children, a girl and then a boy. She quit her job to devote full time to them. As the children grew, Goldilocks took great joy in introducing them to the stories she had loved as a child. When her son went off to kindergarten, Goldilocks thought about looking for a job. But her resume now had a seven-year hole in it, and her practical skills were long out of date. The only jobs Goldilocks could qualify for were minimum wage. She suddenly realized that being practical had made her horribly unhappy. On a whim, Goldilocks decided to do the one thing she had always wanted more than anything else—she was finally going to write a novel. She didn't care if it

was impractical. She didn't care if nobody would ever read her novel. She was going to do it just because she wanted to. For the first time in years, she was going to do something just for herself. And nobody was going to stop her.

"If you've ever tried to write a novel before, you know just how tricky that can be. From juggling your plot and subplots, to crafting characters and fleshing out your worldbuilding, you have a lot to think about. What's worse, you need to keep track of all of this while also putting words on the page and staying productive, otherwise, you may never finish your novel at all" --

Go from Idea to Outline-And Finish Your Draft Without

Freaking Out When writing's going well, it can be immensely satisfying, not to mention lucrative. But, all too often, this isn't the case. In the beginning, sure. Enthralled by your story idea, you write tons of material. Your word count grows in leaps and bounds. But the deeper you get into your screenplay or novel, the more difficult writing it becomes. The words no longer flow freely; they trickle out. Panicked, you stare at your computer screen, wondering, What happens next? You have no idea. You've run out of steam. You're stuck. You end up with a half-finished draft. Thousands of words that go nowhere. After a few cycles of this, you may question whether you're even cut out for this writing gig, after all. Don't lose faith! The problem isn't with you. It's with your

method. Here's one solution: outline your screenplay or novel before writing it. With such an outline in hand, you won't get stranded. You'll know where your story is headed; you won't have to decide where to take it. You can navigate blank pages without panicking. With this writing skills guide, you'll learn how to quickly produce such an outline. A 3-part process, it looks like this: Make Sure Your Story Idea Isn't a Time-Sink When you get a seemingly great story idea, you probably like to "run with it." Here's the thing: not all ideas are worth the time it takes to outline them, let alone write a first draft based on them. No matter whether you're a "plotter" or a "pantser," you should develop your story idea first, so it has the 6 components all compelling stories share. This way, you can maximize its potential, making sure it has enough

substance to sustain a full-length film or novel and enough appeal to attract an audience to read (or watch) it. Build Your Story Structure Even a great idea can collapse if it doesn't have solid structure to support it. Basically, when well executed, story structure ensures your screenplay or novel becomes progressively more interesting as it goes along. In addition, because you've figured out structural signposts in advance, you won't be traversing "in the dark," for very long. You'll always have a bearing to head toward, a destination just around the corner. Hence, you're unlikely to become so discouraged that you abandon your project altogether.
