Sebastian Junger

Sebastian Junger (born January 17, 1962) is an American journalist, author and filmmaker. He is noted for his book *The Perfect Storm: A True Story of Men Against the Sea* (1997), a creative nonfiction work which became a bestseller; and for his documentary films *Restrepo* (2010) and *Korengal* (2014), which won awards.

Sebastian Junger - Wikipedia

In the riveting new documentary *Hell on Earth: The Fall of Syria and the Rise of ISIS* from National Geographic Documentary Films, filmmakers Sebastian Junger and Nick Quested meticulously identify the forces that led to the deadly conflict in Syria and facilitated the rise of the radical Islamists who are now organizing and inspiring terrorist operations around the world.

Sebastian Junger

Tribe is a look at post-traumatic stress disorder and the challenges veterans face returning to society. Using his background in anthropology, Sebastian Junger argues that the problem lies not with vets or with the trauma they've suffered, but with the society to which they are trying to return.

Books by Sebastian Junger (Author of The Perfect Storm)

Sebastian Junger has seen war up close, and he knows the impact that battlefield trauma has on soldiers. But he suggests there's another major cause of pain for veterans when they come home: the experience of leaving the tribal closeness of the military and returning to an alienating and bitterly divided modern society.

Sebastian Junger | Speaker | TED

Any one who has read The Perfect Storm will know that Sebastian Junger's great skill as a writer is to prioritise the human elements of the story, thereby juxtaposing ordinary individuals reacting to extraordinary circumstances - as he does in War, the companion piece to the superb documentary Restrepo that follows a platoon of young American Airborne soldiers on a fourteen month deployment in the lethal Korengal valley in Afganistan.

2002. Spouse (1)

The awakened cannot be enslaved; the asleep cannot be freed.

We have a strong instinct to belong to small groups defined by clear purpose and understanding--"tribes." This tribal connection has been largely lost in modern society, but regaining it may be the key to our psychological survival. Decades before the American Revolution, Benjamin Franklin lamented that English settlers were constantly fleeing over to the Indians-but Indians almost never did the same. Tribal society has been exerting an almost gravitational pull on Westerners for hundreds of years, and the reason lies deep in our evolutionary past as a communal species. The most recent example of that attraction is combat veterans who come home to find themselves missing the incredibly intimate bonds of platoon life. The loss of closeness that comes at the end of deployment may explain the high rates of post-traumatic stress disorder suffered by military veterans today. Combining history, psychology, and anthropology, *Tribe* explores what we can learn from tribal societies about loyalty, belonging, and the eternal human quest for meaning. It explains the irony that-for many veterans as well as civilians-war feels better than peace, adversity can turn out to be a blessing, and disasters are sometimes remembered more fondly than weddings or tropical vacations. *Tribe* explains why we are stronger when we come together, and how that can be achieved even in today's divided world.

Forest fires, terrorism, war: explorations of danger by the author of *The Perfect Storm*. In *Fire*, Sebastian Junger brings to bear the same meticulous prose that made *A Perfect Storm* a modern classic onto the inner workings of a terrifying elemental force—an out-of-control inferno burning in the steep canyons of Idaho—and the cast of characters risking everything to bring that force under control. Few writers have been to so many desperate corners of the globe as has Sebastian Junger; fewer still have provided such starkly memorable evocations of characters and events. From the murderous mechanics of the diamond trade in Sierra Leone to the logic of guerrilla warfare in Afghanistan and the forensics of genocide in Kosovo, this collection of Junger's nonfiction will take you places you wouldn't dream of going to on your own.

They were collectively known as “The Rock.” For one year, in 2007-2008, Sebastian Junger accompanied 30 men—a single platoon—from the storied 2nd battalion of the U.S. Army as they fought their way through a remote valley in eastern Afghanistan. Over the course of five trips, Junger was in more firefights than he could count, as men he knew were killed or wounded and he himself was almost killed. His relationship with these soldiers grew so close that they considered him part of the platoon, and he enjoyed an access and a candidness that few, if any, journalists ever attain. *War* is a narrative about combat: the fear of dying, the trauma of killing and the love between platoon-mates who would rather perish than let each other down. Gripping, honest and intense, *War* explores the neurological, psychological and social elements of combat, as well as the incredible bonds that form between these small groups of men. This is not a book about Afghanistan or the “War on Terror”; it is a book about all men, in all wars. Junger set out to answer what he thought of as the “hand-grenade question”: why would a man throw himself on a hand grenade to save other men he has known for probably only a few months? The answer is elusive but profound, going to the heart of what it means not just to be a soldier, but to be human.

The #1 best-selling author of *The Perfect Storm* offers an on-the-ground account of a single platoon during its 15-month tour of duty in the most dangerous outpost in Afghanistan's Korengal Valley.

A fatal collision of three lives in the most intriguing and original crime story since *In Cold Blood*. In the spring of 1963, the quiet suburb of Belmont, Massachusetts, is rocked by a shocking sex murder that exactly fits the pattern of the Boston Strangler. Sensing a break in the case that has paralyzed the city of Boston, the police track down a black man, Roy Smith, who cleaned the victim's house that day and left a receipt with his name on the kitchen counter. Smith is hastily convicted of the Belmont murder, but the terror of the Strangler continues. On the day of the murder, Albert DeSalvo—the man who would eventually confess in lurid detail to the Strangler's crimes—is also in Belmont, working as a carpenter at the Jungers' home. In this spare, powerful narrative, Sebastian Junger chronicles three lives that collide—and ultimately are destroyed—in the vortex of one of the first and most controversial serial murder cases in America.

Presents a vivid account of a history-making storm that hit the New England coast in October 1991 and the lives it changed, weaving together the history of the fishing industry, the science of storms, and personal accounts. *Tour*.

"A profound rumination on the concept of freedom from the New York Times bestselling author of *Tribe*"--

These stories rocket readers across the roof of the world on the new high-speed railway in Tibet, describe the tension between Indian farmers and the sacred elephants besieging their villages, and introduce them to a shaman whom some believe can cure the most serious depressions.
