Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

Heroic young men carry the emotional weight of their lives to war in Vietnam in a patchwork account of a modern journey into the heart of darkness.

It is ironic that our ever-present preoccupation with closing the achievement gap is insufficiently articulated in current federal education policy. To this end, Pierre Orelus ' study cogently underscores the fruitfulness of caring teachers ' persistence in bridging the all-too-frequent gulf that exists between school and community together with an apprenticeship model that saturates youth in academic discourses. This is an encouraging and inspiring read. Angela Valenzuela, College of Education, University of Texas at Austin, author of Subtractive Schooling and Leaving Children Behind.

16 MILLION COPIES SOLD 'A book to read, to cherish, to debate, and one that will ultimately keep the memories of the victims alive' John Boyne, author of The Boy in the Striped Pyjamas A prominent Viennese psychiatrist before the war, Viktor Frankl was uniquely able to observe the way that both he and others in Auschwitz coped (or didn't) with the experience. He noticed that it was the men who comforted others and who gave away their last piece of bread who survived the longest - and who offered proof that everything can be taken away from us except the ability to choose our attitude in any given set of circumstances. The sort of person the concentration camp prisoner became was the result of an inner decision and not of camp influences alone. Frankl came to believe man's deepest desire is to search for meaning and purpose. This outstanding work offers us all a way to transcend suffering and find significance in the art of living.
