The Political Logic of Economic Reform in China by Susan L.---

The careful explication of the unfolding reforms reveals economic policies that follow political rather than economic logic. Economic reform in China has proceeded but has been gradual, ad hoc, particularistic, and often inefficient because Deng Xiaoping needed and was able to create vested interests in reform and support for himself among strategic members of the political elite (the ...

Today, efforts to govern and secure modern populations continue to rely heavily on political economic thinking and practice. Yet free market economies bring instability as well as growth. There is a core tension in contemporary liberalism between the capacity of free markets to foster the good life, and their tendency to massively disrupt that same good life through periodic crises.

It will be interesting to see if these negotiations are governed by an economic or a political economy logic. Finally, this government is comfortable with greater concentration of capital. The argument that there is a need to create national champions who can leverage scale will be used to justify the dominance of the Ambanis over the Indian economy to a point that is unhealthy.
