There are some that would say a dog is only loyal so long as it is getting food and shelter. But if you have ever known a dog and seen the reaction it has when you come home or it is reunited with a fellow four legged friend you know it is about more than that. There are plenty of examples of dogs showing loyalty to their owners.

Why We Love Dogs is a slim, efficient book, but it delves deep into our psychological processes and the outside systems that work together to create the schism between what we feel (!I love animals!) and what we do (consume them). With several new, thought-provoking concepts brought to the table, Dr. Joy does what the best authors make us do: she helps to unsettle our mental dust and prompts us to think with more depth, honesty and clarity.

Social psychologist Melanie Joy explains carnism, the invisible belief system that shapes our perception of the meat we eat, so that we love some animals and eat others without knowing why. Joy explains how carnism, like other isms (sexism, racism, etc.), is most harmful when it is unrecognized; and it is sustained by complex social and psychological mechanisms.

"If they eat it right away, it's safe to eat. They won't get infected by parasites." That led Hart to proffer a new theory: That today's poop-eating dogs still carry around this wolfy instinct, even though the faeces of modern-day pets tend to be parasite-free thanks to preventive treatments.

~~We Might Finally Know Why Dogs Love to Eat Poop~~

Because carnism is an invisible belief system, most people view eating animals as a given rather than as a choice. When eating animals is not necessary for survival, however, as is the case in the majority of the world today, then it is a choice.
